

Attorney's Docket: 1999US001  
Serial No.: 09/738,623  
Art Unit 1751

### **REMARKS**

Claims 16-22 and 26-28 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Bragg (US 4,430,243). Claim 16 has been amended to include the concentration ranges for the composition. The concentration of the detergency builder (salt of an organic acid) and hydrogen peroxide in the instant invention are at least an order of magnitude outside the range of concentrations in Bragg. It would not have been obvious to one skilled in the art to try concentrations so far removed from the prior art cited. The applicants traverse this rejection and respectfully request that claim 16 - 22 and 26 - 28 be allowed.

Claims 29 and 30 stand rejected under 35 USC § 1.03(a) as being obvious from Bragg (US 4,430,243) and Kravetz et al. (US 4,025,453). Pursuant to the arguments put forth above, the rejection based on Bragg is traversed, therefore the combination with Kravetz et al. should not be considered as obvious. Applicants respectfully request that these claims be allowed.

Claims 23-25 stand rejected under 35 USC § 1.03(a) as being obvious from Bragg (US 4,430,243) and Chapple et al. (US 5,536,441). Pursuant to the arguments put forth in the first two paragraphs of these remarks, the rejection based on Bragg is traversed, therefore the combination with Chapple et al. should not be considered as obvious. Applicants respectfully request these claims be allowed.

Claim 16 stands rejected under 35 U.S.C. 112 paragraph 2 as indefinite. Claim 16 has been amended. Applicants traverse the objection to the use of the term starts. Applicants point out that in the specification at page 7 first paragraph that the bath starts out slightly alkaline but achieves a neutral pH. Applicants traverse the rejection and respectfully request that Claim 16 be allowed.
